MyHealthily Announces Illustrative Level Funding for Small Group Benefits

[ENGLEWOOD, NJ, March 30, 2023] — Building on a track record of delivering innovation to health & benefit brokers, MyHealthily Insurance Solutions announces the release of Illustrative Level-Funding.

“Insurance Agencies are looking to maximize revenue from their small business customers. The MyHealthily Illustrative Level Funding approach provides a simple and hassle-free method.”

- Kevin Trokey, Founding Partner at Q4intelligence

Illustrative Level Funding allows agents and brokers to generate multiple health coverage estimates for their clients from multiple national medically underwritten carriers. The platform and this feature are an industry first that saves brokers 70% of the time and hassle they are all too familiar with. The release of Illustrative Level Funding is additional proof that MyHealthily is delivering a trail blazing approach to benefit agents and brokers who quote, sell, enroll, and service small groups.

MyHealthily's Illustrative Level Funding tool helps brokers to simultaneously compare ACA-fully insured and level-funded products. This tool also allows employees to complete a simple digital medical questionnaire that dramatically simplifies the employee experience. Health Benefit Brokers can now quote illustrative rates in the level-funded market in all 50 states - in just minutes.

*“Our team is constantly looking for new ways to serve our customers ...
MyHealthily's solution helps our producers close more cases in less time –
Illustrative Level Funding and easy enrollment helps a lot!”*

-Steve Wilson, Benefits Consultant at CBIZ Benefits & Insurance

With the latest addition to the platform, MyHealthily continues to modernize how brokers access the entire benefit marketplace, while providing the opportunity to give clients additional savings. Brokers can now work alongside their clients to ensure they make well-informed decisions and get maximum savings.

“Since we released the platform last year, our brokers are spending more time advising clients and less time on paperwork and chasing quotes. Illustrative Level Funding represents the next evolution in our plan to help brokers serve their small groups”, said Michael Malhame, Founder & CEO.

###

For brokers and agents who provide benefits, MyHeathily Insurance Solutions, LLC, is the customer-centric, agent-approved platform. The MyHealthily proprietary platform provides benefits agencies with differentiation through plan options, a streamlined employer and broker experience, and time-saving workflow for enrollment and renewals. Currently partnered with Agencies in all 50 states, MyHealthily is the insurance innovator solving the biggest pain points for health benefits brokers and agencies.
